Mr. H. F. Wareing  
1747 North 12th Street  
Milwaukee, Wisconsin

Dear Mr. Wareing

I have your letter of July 3 and want to thank you very much for the fine cooperation and spirit you are showing, which will certainly help to make the WORLD-WIDE RADIO AMATEUR CONVENTION the finest of its kind ever attempted.

Immediately upon receipt of your letter I wired Lieutenant Jennings B. Dow, of the U.S.S. Utah, San Pedro, California, as follows:

"REFERENCE YOUR LETTER JUNE TWENTY FOURTH SEND MATERIAL MENTIONED DIRECT TO H F WAREING CHIEF ENGINEER RADIO BUREAU MILWAUKEE WISCONSIN POLICE DEPARTMENT ONE SEVEN FOUR SEVEN NORTH TWELFTH STREET WHO WILL ADDRESS CONVENTION ON ELECTRON COUPLED OSCILLATORS THANKS"

You should receive this material within the next week, at which time I wish you would let me know so that I will be kept properly informed that everything is going on as planned.

Mr. Fred Schnell is going to talk on "A New Type Of Monitor" which will require about twenty minutes' time. Since the meeting scheduled for "Frequency Stability," "Electron Coupled Oscillators," and "A New Type Of Monitor" is to start at 4:45 P.M. Friday, August 4, and continue on 'til 6:00 P.M., that will leave approximately fifty-five minutes for you to cover the subjects of "Frequency Stability" and "Electron Coupled Oscillators."

Due to the mass of detail I am handling, I may not have the opportunity of writing you again and so I am enclosing a complimentary ticket to the Convention, which of course includes the wind-up banquet. You might write me say the latter part of July saying what time you expect to arrive in Chicago. If you come by train I shall be delighted to meet you; or if you come by automobile, perhaps the best thing for you to do would be to go directly to the Medinah Michigan Avenue Club, 505 North Michigan Avenue, and ask to be shown to the Convention headquarters. You may be assured we will do everything in our power to make your visit here in Chicago during the Convention a most pleasant one.

Yours very truly

WORLD-WIDE RADIO AMATEUR CONVENTION COMMITTEE
